

Top TEN Reasons to Choose Altius

- 10 THE BEST MCAT PREP VALUE EVER OFFERED**

Twenty (20) one-on-one tutoring sessions (sold for \$3,000-5,000 from our competitors); Thirty-two (32) interactive classroom sessions (\$1799-1899); plus FREE admissions assistance (\$599-1599), all for only \$1790.
- 9 MORE ACCURATE PRACTICE**

We focus on real AAMC MCAT practice questions—those written by the same people who write the MCAT. Questions generated by other prep companies often lack the conceptual flavor and unique format of real AAMC questions.
- 8 SCIENTIFICALLY-PROVEN TEACHING METHODS**

Lecturing is the least effective of all known teaching methods; yet it is the primary tool employed by most MCAT companies. Our program is uniquely designed to take advantage of proven principles of learning and memory.
- 7 INTERACTIVE, HANDS-ON LEARNING**

Our teaching methods are all hands-on. During our interactive small group seminars, each student attempts real questions, carefully analyzes them with the group, and takes a turn leading the group discussion.
- 6 REVIEW AND REPETITION**

Most programs present each topic once, with little or no review. At Altius, we've carefully designed our program to ensure that students see and review every topic a minimum of ten times prior to their exam.
- 5 ACCOUNTABILITY & TRACKING**

At Altius we meticulously track each student's progress and hold them accountable for meeting specific weekly objectives. You will always know exactly where you are and what is still needed to reach your goals.
- 4 YOU'RE MORE THAN A NUMBER**

In no other program will you have more people who sincerely care about your success, period. Everyone from your tutor to the owner of the company knows your name and regularly discusses your progress.
- 3 ELEVATED EXPECTATIONS**

People will always rise to greater heights when greater things are expected of them. The ultra-high expectations in our program are infectious. We set our students sights on the high thirties and push them hard to achieve it.
- 2 PRIVATE TUTORING**

Personal instruction, focused ONLY on you, with ALL resources devoted to your individual needs and questions. There's no doubt it's more effective—that's why our competitors charge several thousand dollars for tutoring.
- 1 PROVEN RESULTS**

In the end, is there anything else that matters? Our students score higher—a lot higher. We publish full statistics and a complete distribution. Whatever benefits other programs may claim to have, their results can't match ours.
