

Integrity Promise

**1**

Full Disclosure of Student Score Results

Each fall Altius will release detailed MCAT score statistics for the previous year—always compiled and certified by an independent third-party accountant. Students will know exactly how well our program works and what range of scores to expect.

2

No Fine Print

Altius will never use “fine print” exclusions, limitations, or technicalities that alter the implied meaning of a promise, advertisement, or claim. All terms will be spelled out in clear, straightforward language in a font large enough you can actually read it!

3

No Pricing Gimmicks

Each Altius MCAT course will be offered for one low, fixed price. Students can buy with confidence today, knowing they won't miss out on a so-called “sale” tomorrow. We will not use “limited-time only,” “bait-and-switch,” or other questionable pricing schemes.

4

No Aggressive Sales Tactics

Altius will never pressure you to buy anything. We do not close marketing events with “tonight only” offers designed to coerce you into an immediate purchase; nor do we give intentionally difficult practice exams to scare you into signing up for MCAT prep.

5

No Exclusivity Agreements

Altius will never sign any agreement with a club, university, or advisor that forbids them from working with our competitors. These monopolistic back-room deals limit student choice. We believe free and open competition keeps prices low and quality high.
